This open-layout tiller combines a large bow casting platform, 25-gallon aerated bow livewell with bait bucket and rod storage for the ultimate wallet-saving rig, complete with the industry's best warranty.

1 All-Welded Construction

Every Starweld offers the toughness and reliability of all-welded marine-grade aluminum construction that's backed by a lifetime warranty on all seams.

**2 Premium Console**

Starweld consoles are automotive-inspired and feature speedometer, tachometer, voltmeter and fuel gauge.

**3 FreshCatch Livewells**

Our aerated livewells are timed for convenience and feature a PowerStream nozzle, a single bilge and black thru-hulls. (See model lineup for location and sizes.)

4 Lockable Rod Storage provides plenty of secure storage space for your gear and keeps the floor free of obstructions. (See model lineup for in-floor, bow, stern, port and starboard locations.)

5 Convertible Bow and Stern Seats allow you to quickly go from leisure to fishing.

6 Twice-Baked Painted Hull

Starweld full painted hulls provide showroom looks designed to last for years.

7 Machine-Formed Ribs

Our unique machine-formed ribs are stronger and more flexible than the heavy two-ply aluminum used by many competitors.

**8 Torsion Beam Construction**

Instead of the flat I-beams that you find on many boats, Starweld uses the exclusive Starcraft Torsion Beam Construction (TBC) stringer system for exceptional strength and shock absorption.

9 Injection Flotation Foam

On a Starweld foam is injected, not poured, between the floor and hull — filling all air pockets. This provides greater strength and buoyancy and reduces noise.

**10 Reverse Chine Hull**

The Starweld full-length reverse chine hull pushes water down and away from the boat, for quicker planing, improved cornering and a smoother, drier ride.

11 Aft Casting Platforms

Because Starweld boats are all about fishing, they have the largest aft casting platforms in their class.

THE INDUSTRY'S BEST WARRANTY. PERIOD.
